PRELIMINARY AMENDMENT

Sir:

Please add the following new Claims 17-20:

17. (New) An LED array comprising:

at least two LED chips positioned adjacent to each other, each
LED chip comprising a plurality of LEDs, each LED producing
an emission centroid light pixel;

wherein each end LED of each LED chip is inward biased from a
center of the LED in order to shift a position of a
respective centroid of emitted light closer to a respective
LED chip edge; and
